1989 IN REVIEW

What a year!

We doubled our business.

We added numerous people to our staff.

We opened new offices around the world.

We did all this and more in a very competitive environment and in the midst of intensive integration

activities. In more ways than one, it was a year of phenomenal growth and maturing.

I can't think of many groups of people who could have accomplished half of what we did last year, one reason why I'm so confident of what we'll achieve this year.

Without exaggerating, we can go to customers and tell them that nobody in our field has the number of top quality people, services and products that MDI has. Not only that, we can prove it.

The only problem with

this kind of success is that, as we grow larger, it becomes more difficult for each of us to keep track of what is happening with many of our co-workers and our other offices. That's one reason why we have produced this Yearbook —so that we all can be informed about developments in other offices and be able to put some faces to many of the names we hear.

So let me take this opportunity to congratulate all of you on a job superbly done. And now, let me welcome you to the very first MDI Yearbook, a publication that I expect will be an eagerly-received annual keepsake.

Barclay Isherwood
President

ANOTHER MESSAGE...This One From The Editor

As well as joining Barclay in welcoming you to the first annual MDI Yearbook, I would like to thank all of you for your cooperation in taking time out of your busy days to sit for your photographs. And very special

thanks to the contributing editors in each office who supplied me with photos and news items. Because of the tight deadline, it really put the pressure on you. But the good news is, now that we know what to expect in

putting our Yearbook out, we'll be much better prepared for next year.

Thanks again everybody. Enjoy the book.

MDI RICHMOND: MDI was born in Richmond, so it's not surprising that the Richmond office is the largest one in MDI's world. As corporate headquarters, this office houses Sales, Systems, Finance & Administration, Product Development, Manufacturing Operations, Customer Service and Marketing. With that many groups, and more than 400 employees, you would expect a lot to take place in a year. And it did. Among other things... Customer Service negotiated two major contracts in Europe. Engineering successfully integrated Motorola and MDI technology, consolidated their U.S. engineering in Seattle and moved the Software Applications Group to new offices in Richmond. In a monumental effort, Sales and Systems reorganized itself along country lines to bring MDI and its customers closer together. Marketing grew and reorganized, Human Resources was heavily involved in integration activities and recruiting drives while Finance opened up in Schaumburg, Seattle, London and Copenhagen. And much more took place...too much, in fact to mention here.

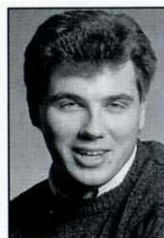

Confidential message to Richmond: "Way to go!"

TORONTO, ONTARIO:

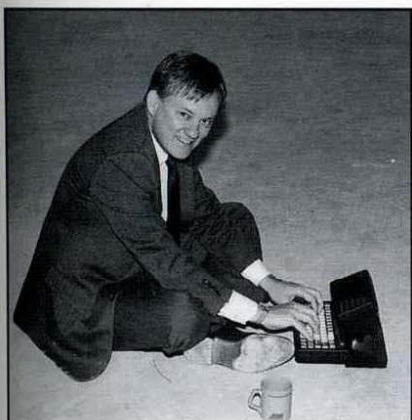

Richmond might be the largest MDI office in Canada, but Toronto is the fastest-growing.

Established in mid-July, it grew by 800% during its first three months of operation. Honest! It began with Michael Chevalier and, within one calendar quarter, he had seven compatriots.

Imagine if this blistering rate of growth continues. In about another week, they'll have 64 employees. By Easter they'll pass the 500 mark. By summer they'll be at more than 4,000. And, a year from now, they will have 262,144 employees! More impressive still, within another six months or so they'll have more employees than Canada has citizens!

As you might expect, Toronto has to find larger premises and is planning a move early this year.

The distinguished list of clients fueling Toronto's remarkable growth includes: Roger's Cable, BC Transit, Purolator Courier, Peel Police and Halifax Police.

Toronto's Michael Chevalier never did picture himself having a desk job.

Christmas at MDI, Toronto. Left, Lisa Chillingworth; right, Robert Maynes; centre back, Michael Chevalier, centre foreground, Santa Claus.

Corporate Cup, a sports day in Vancouver, featured an MDI team that placed 18th out of 92 teams. Had M.D. Ivan and M.D. Irene been there to cheer, they say they would have placed at least 17th.

"To be able to work with a successful B.C. company like Mobile Data International was a definite asset. It was comforting to know that less than 30 kilometers away, an internationally successful company was putting their top people and resources to work to help us..."
